Mr Howland Wood,

93 Perry St.,

Brookline, Mass.

Dear Sir:

Mr L.W. Jenkins, of the Peabody Museum at Salem, has kindly given me your name, as one interested in the collection of coins, thinking you might be interested in a small variety of Chinese coins which I now possess and which I am prepared to part with. The Museum has already taken some, and the remainder will be in my hands on Tuesday next, after which time they may be seen.

These coins, like my curios, were all collected IN CHINA by myself, and are unquestionably genuine. Most of the coins date B.C.

Should you be interested I shall be glad to have you call or to call upon you. My telephone is Winthrop 159-W.

Sincerely yours,

Charles F. Gammon
